I-89 Lamoille River Bridges – Final Paving Operations and Potential Traffic Impacts

October 28, 2016 – Press Release

Milton, VT – Tetra Tech Construction has started final paving operations for Northbound and Southbound I-89 North and South of the Lamoille River Bridge. To facilitate this work, daily Northbound lane closures will be installed from 7AM to 4PM and Southbound lane closures will be installed from 8:30AM to 7PM with possible 24 hour lane closures installed as required to facilitate these operations. Southbound morning commuter traffic and Northbound evening commuter traffic may be impacted heavily and could cause delays.

The Project Team asks the travelling public to help keep workers safe by reducing speeds through the active work zone and to stay alert for changing conditions. Additional speed enforcement will be present in the construction zone, and drivers are to be reminded that it is now against the law to use a hand held cell phone in construction work zones.

Information about the project and traffic impacts can be found on the project website:
